This is the most subversive piece of Castro communist propaganda ever. All distributors, cast and crew should responsibly assume their position as supporters of five murderous communist Cuban spies whose hands are full of blood of their own people. Shame on the so called Venice art festival, and shame on all individuals involved in this heinous apology of the five murderous spies that Castro used as political propaganda long after they had been caught, when he ran out of ammo once the Elian Gonzalez issue had been resolved in his favor.

Sinopsis: A young Western woman is recruited by the Mossad to go undercover in Tehran where she becomes entangled in a complex triangle with her handler and her subject.
Cast: Diane Kruger, Martin Freeman, Cas Anvar, Werner Daehn, Liron Levo, Hadi Khanjanpour, Maria Gnecchi, Erez Ben-Ezra, Julia Schneider, Daniel Wandelt
Genre: Thriller, Action, Crime
Production: Black Bear Pictures, Le Pacte, Neue Bioskop Film, Spiro Films
Keyword:

Director Y. Adler brings novel - The English Teacher, to the screen. The movie is basically a solidly crafted spy thriller about a woman recruited by the Israeli intelligence agency to work undercover in Tehran. The tale itself - of the spy who got in too deep and let their emotions best them - is one as old as the spy thriller genre, unfortunately the movie doesn't bring a lot of new or fresh 'things' to the table.

Martin Freeman plays nicely a British Jewish man in Germany as Mossad agent who recruits very good multilingual Diane Kruger's newbie to go undercover in Iran. in that regard, "The Operative" tries to set up a friendship between Thomas (Freeman) and Rachel (Kruger), but that dynamic never truly shines on screen. The film's biggest problem is that despite being billed as a thriller, it isn't exactly, well, thrilling. But no matter, "The Operative" isn't enough fast-paced as spy movie there is enough going on to keep your attention for the two-hour run time. Actually, film is more an espionage tale that's more John LeCarre than 007, with a complexity of plotting that might make viewers desire a second viewing.

Rating: 7- (because I love spy movies)
